

Acknowledgments

The Agency for Toxic Substances and Disease Registry (ATSDR) was responsible for the preparation of this primer for environmental health professionals. The document was prepared by Eastern Research Group (ERG) under ATSDR Contract No. 205-95-0901. John H. Mann, ATSDR, served as the technical project leader for this effort—providing overall direction and coordination, offering technical assistance and guidance, and serving as a contributing author. Scientists, writers, and communication specialists at ERG conducted research, prepared the document, and provided the graphic design and artwork. Scientists with ATSDR and the Connecticut Department of Public Health (CTDPH) provided additional research information, case histories, and guidelines.

This document was a team effort of many talented people. Listed below are the names of major authors, contributors, and reviewers.
