

Toxicological Profile for Dinitrocresols

January 2018

U.S. Department of Health and Human Services
Agency for Toxic Substances and Disease Registry

CS274127-A

FOREWORD

This toxicological profile is prepared in accordance with guidelines* developed by the Agency for Toxic Substances and Disease Registry (ATSDR) and the Environmental Protection Agency (EPA). The original guidelines were published in the *Federal Register* on April 17, 1987. Each profile will be revised and republished as necessary.

The ATSDR toxicological profile succinctly characterizes the toxicologic and adverse health effects information for these toxic substances described therein. Each peer-reviewed profile identifies and reviews the key literature that describes a substance's toxicologic properties. Other pertinent literature is also presented, but is described in less detail than the key studies. The profile is not intended to be an exhaustive document; however, more comprehensive sources of specialty information are referenced.

The focus of the profiles is on health and toxicologic information; therefore, each toxicological profile begins with a relevance to public health discussion which would allow a public health professional to make a real-time determination of whether the presence of a particular substance in the environment poses a potential threat to human health. The adequacy of information to determine a substance's health effects is described in a health effects summary. Data needs that are of significance to the protection of public health are identified by ATSDR.

Each profile includes the following:

- (A) The examination, summary, and interpretation of available toxicologic information and epidemiologic evaluations on a toxic substance to ascertain the levels of significant human exposure for the substance due to associated acute, intermediate, and chronic exposures;
- (B) A determination of whether adequate information on the health effects of each substance is available or in the process of development to determine levels of exposure that present a significant risk to human health of acute, intermediate, and chronic health effects; and
- (C) Where appropriate, identification of toxicologic testing needed to identify the types or levels of exposure that may present significant risk of adverse health effects in humans.

The principal audiences for the toxicological profiles are health professionals at the Federal, State, and local levels; interested private sector organizations and groups; and members of the public.

This profile reflects ATSDR's assessment of all relevant toxicologic testing and information that has been peer-reviewed. Staffs of the Centers for Disease Control and Prevention and other Federal scientists have also reviewed the profile. In addition, this profile has been peer-reviewed by a nongovernmental panel and was made available for public review. Final responsibility for the contents and views expressed in this toxicological profile resides with ATSDR.

Centers for Disease Control and Prevention

*Legislative Background

The toxicological profiles are developed under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended (CERCLA or Superfund). CERCLA section 104(i)(1) directs the Administrator of ATSDR to "...effectuate and implement the health related authorities" of the statute. This includes the preparation of toxicological profiles for hazardous substances most commonly found at facilities on the CERCLA National Priorities List (NPL) and that pose the most significant potential threat to human health, as determined by ATSDR and the EPA. Section 104(i)(3) of CERCLA, as amended, directs the Administrator of ATSDR to prepare a toxicological profile for each substance on the list. In addition, ATSDR has the authority to prepare toxicological profiles for substances not found at sites on the NPL, in an effort to "...establish and maintain inventory of literature, research, and studies on the health effects of toxic substances" under CERCLA Section 104(i)(1)(B), to respond to requests for consultation under section 104(i)(4), and as otherwise necessary to support the site-specific response actions conducted by ATSDR.

VERSION HISTORY

Date	Description
August 1995	Draft for public comment toxicological profile released
October 2009	Addendum to the toxicological profile released
January 2018	Update of data in Chapters 2, 3, and 7

VERSION HISTORY	iv
CONTRIBUTORS & REVIEWERS	v
CONTENTS.....	vi
LIST OF FIGURES	viii
LIST OF TABLES	ix
CHAPTER 1. RELEVANCE TO PUBLIC HEALTH	1
1.1 OVERVIEW AND U.S. EXPOSURES	1
1.2 SUMMARY OF HEALTH EFFECTS.....	1
1.3 MINIMAL RISK LEVELS (MRLs)	4
CHAPTER 2. HEALTH EFFECTS.....	7
2.1 INTRODUCTION.....	7
2.2 DEATH	31
2.3 BODY WEIGHT	32
2.4 RESPIRATORY	33
2.5 CARDIOVASCULAR	34
2.6 GASTROINTESTINAL.....	35
2.7 HEMATOLOGICAL	35
2.8 MUSCULOSKELETAL	37
2.9 HEPATIC	37
2.10 RENAL	38
2.11 DERMAL	39
2.12 OCULAR.....	39
2.13 ENDOCRINE	40
2.14 IMMUNOLOGICAL.....	41
2.15 NEUROLOGICAL	42
2.16 REPRODUCTIVE.....	43
2.17 DEVELOPMENTAL.....	44
2.18 OTHER NONCANCER	44
2.19 CANCER.....	45
2.20 GENOTOXICITY	45
2.21 MECHANISMS OF ACTION.....	48
CHAPTER 3. TOXICOKINETICS, SUSCEPTIBLE POPULATIONS, BIOMARKERS, CHEMICAL INTERACTIONS	51
3.1 TOXICOKINETICS.....	51
3.1.1 Absorption.....	51
3.1.2 Distribution	53
3.1.3 Metabolism.....	55
3.1.4 Excretion	57
3.1.5 Physiologically Based Pharmacokinetic (PBPK)/Pharmacodynamic (PD) Models	59
3.1.6 Animal-to-Human Extrapolations	60
3.2 CHILDREN AND OTHER POPULATIONS THAT ARE UNUSUALLY SUSCEPTIBLE.....	60
3.3 BIOMARKERS OF EXPOSURE AND EFFECT	61
3.3.1 Biomarkers of Exposure.....	62
3.3.2 Biomarkers of Effect.....	63
3.4 INTERACTIONS WITH OTHER CHEMICALS	63

CHAPTER 4. CHEMICAL AND PHYSICAL INFORMATION	65
4.1 CHEMICAL IDENTITY	65
4.2 PHYSICAL AND CHEMICAL PROPERTIES	65
CHAPTER 5. POTENTIAL FOR HUMAN EXPOSURE	69
5.1 OVERVIEW	69
5.2 PRODUCTION, IMPORT/EXPORT, USE, AND DISPOSAL	70
5.2.1 Production	70
5.2.2 Import/Export	70
5.2.3 Use	71
5.2.4 Disposal	71
5.3 RELEASES TO THE ENVIRONMENT	71
5.3.1 Air	72
5.3.2 Water	73
5.3.3 Soil	73
5.4 ENVIRONMENTAL FATE	73
5.4.1 Transport and Partitioning	73
5.4.2 Transformation and Degradation	75
5.5 LEVELS IN THE ENVIRONMENT	78
