

### **TIPs on PCBs Audio Description**

The text “tips on PCBs” appears onscreen, with the CDC and ATSDR logos at the bottom.

The camera pans across a telephone pole with transformers.

A character is replacing an old fluorescent lightbulb from a ceiling light.

Several characters are preparing to renovate an old building.

The camera pans to a field next to a river. There are fish swimming in the river.

A patient is in a medical exam room. Pop-ups show the patient with lesions on her face with the word “Chloracne” underneath; an irregular mole on her skin with the word “Melanoma” underneath; and an infant’s hand playing with letter blocks with the words “Impaired cognition” underneath.

The patient sits on the exam table and talks with a doctor. The text “Blood PCB levels” appears at the top of the screen. Below, there is a red “x” next to the text “cannot predict health effects” and a green checkmark next to the text “can confirm occupational exposure in some situations.”

The patient has chloracne on her face and is talking with a dermatologist in a medical office.

The patient approaches a seafood counter in a grocery store. She uses a government list on her phone to select a best choice fish. At the top of the list are stick figures of a pregnant woman, a mother, and a child.

The camera shows a river with a person fishing on a boat.

The patient talks with a foreman in front of an old building that is being renovated. The foreman holds a sign showing personal protective equipment (PPE).

A character is discarding old fluorescent bulbs in an old building that is being renovated. There is an open window. PPE appears on the character.

The text "tips on PCBs" appears on screen. The web address [atsdr.cdc.gov](https://atsdr.cdc.gov) appears below it and the CDC and ATSDR logos are at the bottom of the screen.
