

PUBLIC HEALTH ASSESSMENT TRAINING

MODULE 1: ATSDR AND ITS METHOD

WB2918

PROGRAM DESCRIPTION:

The Public Health Assessment Training (PHAT) online modules are designed to increase knowledge and change competency of environmental health practices and strategies. The content of the modules is derived from the method used by the Agency for Toxic Substances and Disease Registry (ATSDR), which is known as the public health assessment (PHA), to evaluate exposure to hazardous substances.

OBJECTIVES:

At the conclusion of *Module 1: ATSDR and its Method*, the participant will be able to:

1. Name the responsibilities of ATSDR to protect the public from hazardous exposures.
2. List the components of ATSDR's method, which is known as the PHA.
3. Identify the criteria considered in the evaluation of petition requests.
4. List types of documents that you might develop to summarize the findings and recommendations of the health assessment.
5. List public health recommendations that you can make as a result of the PHA.
6. Describe the importance of interprofessional collaboration between ATSDR and the Environmental Protection Agency (EPA).

FACULTY/CREDENTIALS:

Barbara A. Anderson MScEnvE PE, Environmental Health Scientist, ATSDR

Brian Tencza MEd, Team Lead Education Services, ATSDR

Carla Buriks MS BS, Project Manager/Education Specialist, Tetra Tech Inc.

Karen Scruton BS MS, Environmental Health Scientist, ATSDR

Lynn C. Wilder PhD CIH, Associate Director for Science, National Environmental Health Center

Sandra M. López-Carreras MS, Health Scientist/Training Coordinator, ATSDR

Sylvia Allen-Lewis MEd, Health Education Specialist, ATSDR

ORIGINATION DATE:

January 24, 2020

RENEWAL DATE:

January 24, 2022

EXPIRATION DATE:

January 24, 2024
